Profile

I am a front-end software developer with 4 years of experience in Flutter and User Experience Design. I have 2+ years of hands-on Flutter development creating adaptable web, mobile, and desktop applications. I have worked with back-end systems like Firebase, Heroku, Cloud Run, Identity Platform, Cloud Storage and other GCP APIs.

Employment History

Flutter Developer, Luminucx

Jun 2019 – Sep 2022  Port coquitlam

Took an active role in the start-up, launching the first MVP product, and worked actively with the system designer to create a flutter framework, packages and internal tools.

- Pair programmed a successful multi-language web app in Flutter.
- Timely delivered a design and prototype of an app in Figma.
- Created complex widgets for use cases following Clean Architecture.
- Conducted performance testing and optimization using Dart DevTools.
- Worked on back-end authentication and database features with GCP and Firebase.
- Created HTTP servers in dart using Cloud Functions.
- Designed and pair programmed a framework that enforced Clean Architecture in apps.
- Created a Flutter theme generator application with a companion Dart package.
- Conducted competitor audits and usability studies.

Front-End Developer Contract, Dr Mura Health

Mar 2020 – Jun 2021  Remote

Designed and created a course website for a lifestyle intervention medical practice that served online users.

- Effectively collaborated with the client to meet their needs.
- Designed & prototype their website using AdobeXD.
- Used Angular and Typescript with Firebase storage, authentication and database services.
- Built a CMS that served their content management needs.
- Successfully maintained the site serving users.

Volunteered To Create Remote Area Community Hotspots, TIES

Mar 2022 – Jun 2022  Port Coquitlam

Created RACHEL units with Raspberry-Pi to serve students in third-world countries with access to educational websites & resources in an offline format.

Volunteer As Graphics Designer, Westminster SDA Church

Aug 2020 – Present  New Westminster

I collaborate with a team to design slides used to show transitions, and announcements when streaming a worship service.
