

RODRICK VYIZIGIRO

IT Support / Help Desk Technician

Vancouver, BC, Canada | (343) 401-9289 | rodrielnt@gmail.com | linkedin.com/in/rodvy

SUMMARY

IT support-focused Computer Systems Technology student with hands-on experience diagnosing, refurbishing, configuring, and quality-checking computer hardware. CompTIA Security+ certified, with experience supporting and onboarding volunteers, explaining technical processes clearly, and following structured troubleshooting workflows. Strong foundation in Windows systems, networking, hardware, cybersecurity, and customer-focused technical support.

TECHNICAL SKILLS

Support: Hardware troubleshooting, desktop/laptop repair, system setup, user support, technical documentation, volunteer onboarding, step-by-step technical instruction

Systems & Networking: Windows, Windows Server fundamentals, TCP/IP, DNS, DHCP, VLAN fundamentals, Active Directory fundamentals, basic PowerShell

Security: CompTIA Security+, access control, authentication, security fundamentals, troubleshooting methodology

Other: C#, JavaScript, problem-solving, teamwork, time management, clear technical communication

CERTIFICATION

CompTIA Security+ | CompTIA 2026

RELEVANT EXPERIENCE

Hardware Technician Intern Jan 2026 - Present
Reusetech BC, Burnaby, BC

- Diagnose, repair, test, refurbish, and quality-check laptops, desktops, monitors, and other computer equipment using structured technical workflows.
- Support volunteers with day-to-day technical questions and provide hands-on guidance when troubleshooting or completing refurbishment tasks.
- Onboard and train volunteers on refurbishment processes, work procedures, quality standards, and safe handling of equipment.
- Prepare systems for reuse by verifying hardware functionality, identifying faults, and completing required configuration and testing.
- Maintain organized work areas and support inventory and equipment-handling processes in a high-volume technical environment.

VOLUNTEER EXPERIENCE

Digital Literacy Program Coordinator Jun 2025 - Present
Africa-Canada Education Foundation, Surrey, BC

- Designed a beginner digital literacy curriculum based on the BC Digital Literacy Framework, written for learners with little or no tech experience.

Audio/Visual Volunteer 2021 - 2023
Westminster SDA Church, New Westminster, BC

- Created the slides shown during weekly services.
- Worked with the AV team and program participants to keep each service running smoothly.
- Handled technical issues and troubleshoot equipment live, mid-service when needed.

PROJECTS

Home IT / Cybersecurity Lab: Built a hands-on lab using Proxmox, OPNsense, Cisco managed switches, and Windows Server to practice virtualization, VLAN segmentation, Active Directory, Group Policy, networking, and RADIUS/802.1X concepts.

StormHacks (SFU), Hackathon Team Project: Developed a C#-based interactive system using a microcontroller, applying debugging, teamwork, and rapid technical problem-solving.

EDUCATION

Diploma in Computer Systems Technology | British Columbia Institute of Technology (BCIT), Burnaby, BC
